## PROJECTS

AI Code Review

React.js, Node.js, Express.js, Google Gemini API

June 2025 – Aug 2025

- Built a secure backend system using Node.js and Express with modular architecture (controllers, routes, services).
- Implemented OTP-based authentication via Nodemailer for user verification.
- Integrated Google Gemini API to analyze source code and generate automated reviews, improvement suggestions, and feedback in real time.
- Developed secure backend APIs with .env configuration for API key protection and request handling.
- Available on GitHub.
